UW Educational Outreach (UWEO) educates more than 42,618 students (over 13,300 FTE) annually, partnering with UW academic units to offer 79 fee-based degrees, UW summer quarter courses, 134 certificate programs, online learning, international programs, conferences, and English Language instruction.

Over the past 7 years, freshmen applications to the University of Washington Seattle have increased by nearly 82 percent (from 16,634 to 30,200). During this time, the campus has become more selective, admission rates have declined, GPA and test score averages for the freshman class have increased. Over the past seven years:

- The freshman admission rate has declined from 68.3% to 55.2%, the lowest admit rate ever.
- The average GPA of the entering class has increased from 3.69 to 3.76.
- The average SAT composite score has increased from 1750 to 1830 (out of 2400).

72 percent of UW Seattle undergraduate students (76 percent among all campuses) are residents of Washington.

The number and proportion of under-represented minority students at UW Seattle have increased, comprising 13.4 percent of the 2013 freshman class, compared to 10.4 percent in 2006.

80 percent of entering freshman graduate from the UW within six years, the highest percentage of any public university in the state. The UW’s average time to degree is 4 years.

The UW offers over 440 degree options across 280 programs. In 2012-13, the UW awarded over 15,000 degrees.

In fall 2013, 22.4 percent of UW undergraduates and 30.3 percent of graduate students were pursuing at least one major in science, technology, engineering, and mathematics (STEM) disciplines. In 2012-13, the UW awarded 4,515 degrees in STEM disciplines.

The UW is one of the best universities in the world, ranked 52nd nationally (16th among public institutions) by US News & World Report, 16th in the world by the Academic Ranking of World Universities (ARWU), and 25th by The Times Higher Education/Thomson Reuters World University Rankings (one of only four U.S. public institutions to make the top 25).

The UW is one of the top public universities in the nation in the number of students who have received premier national awards such as the Rhodes, Marshall, Truman, Fulbright and Goldwater scholarships and fellowships.
In addition, the UW ranks first among all US universities in the number of graduates volunteering for the Peace Corps, with 107 alumni undergraduate volunteers in 2012.

**Tuition and Finances**

- The University of Washington Fiscal Year 2014 budget totals $6 billion.
- Tuition revenue comprises 69 percent of the University’s general operating fund resources (state funds plus tuition revenue), up from 34 percent in 2004, primarily because the UW has lost half of its state funding in the span of four years (fiscal years 2009-2012). Fortunately, the dramatic decline in state support reversed this year, as the FY14 Budget includes a 21 percent increase in state funding over FY13.
- In 2013-14, UW tuition and fees were $12,397 per year. Thanks to the increased funding by the state, the UW was able to freeze tuition at its current level for two years. Currently, the UW undergraduate resident tuition rate is below the Global Challenge State peer mean and median. Kiplinger’s ranks the UW as #13 for in-state students in its list of Best Values in Public Colleges in the nation.
- A quarter of undergraduates receive Pell Grant funding, and 28 percent of all freshmen will be the first in their families to attend college.
- This year, thirty-three percent of (about 9,500) UW undergraduate residents were eligible for the Husky Promise program, which through a combination of state, federal and UW local funds provides free tuition to students with financial need.
- Each year, about 58 percent of UW undergraduates receive some form of financial aid totaling over $386 million, of which about $254 million was in the form of scholarships, grants, and waivers, while $132 million comprised loan and work study aid. Half of all UW undergraduates graduate with zero debt. In 2012, those that did borrow graduated with an average debt load of $20,794, compared to $25,000—the national public four-year average.

**Research and Service**

- Amongst over 4,350 UW faculty you will find 6 Nobel Prize winners, 15 MacArthur Fellows, over 240 members of the Institute of Medicine and the National Academies, and 162 Fellows in the American Association for the Advancement of Science.
- The UW receives more federal research dollars than any other public university in the nation. In 2012, this amounted to more than $1.47 billion (5,029 grants), which supports 7,445 direct jobs in the local economy. Sixty-eight percent of these funds are from federal sources.
- The UW is the 3rd largest employer in Washington, with over 30,200 benefits eligible faculty and staff. The University also employs over 4,400 benefits-eligible graduate students.
- 280 companies have been started by UW faculty and students or with UW developed technology.
- The Center for Commercialization (C4C) launched a record 17 new start-ups in FY13 based on UW research technologies, marking the UW’s single most productive year for start-up formation. In addition, 90 patents were awarded in FY13, and more than 80 ventures are currently in the C4C New Ventures startup pipeline.
- The UW operates four hospitals – UW Medical Center, Harborview Medical Center, Northwest Hospital and Valley Medical Center – which together provided $325 million in charitable care in 2011-2012.
